WELCOME ADDRESS

Dear Scholar,

Cead Mile Failte to the Island of Ireland for our 2008 International Conference which is now only months away. Come and savour this ancient and mystical land. Enjoy the wonderful landscape while learning about this Island's dynamic economy which co-exists with the effort to reconcile a turbulent past.

We have a mixture of social events and technical tours on which you will have the opportunity to absorb the culture of Ireland and sense its enormous history. In the calm and easy going manner of the Irish you will have the opportunity to meet old friends and perhaps make new ones. At the same time you will be able to participate and learn about and from best practice Irish agriculture. We have developed a programme with a view to encourage more of the younger and returning Scholars in the hope that they will continue to embrace the life long Nuffield experience.

On 13th June in the medieval City of Kilkenny we are hosting our one day Conference. Agriculture is undergoing its most significant transformation in 200 years as commodity prices soar due to demand pressure rather than supply pressure. We are hoping to get a better understanding of the situation with our Conference titled "Global Production Agriculture - What part will you Play?" We have invited a panel of eminent international speakers from the industry who we will enlighten us on the future prospects of global production agriculture. Having attended this conference we firmly believe that you will return to your business as you did from your Nuffield Scholarship, motivated and optimistic about the role that production agriculture will play in your future.

Our tour begins in Belfast on June 5th and finishes on the 18th June in Kildare. Do not miss the opportunity of a lifetime and join us in Ireland in 2008.

On behalf of the organising committee

Grainne Dwyer

Thomas Horgan

Jim McCarthy, Joint Chairperson, Organising Committee

Campbell Tweed, Joint Chairperson, Organising Committee
